## Geospatial and location-based solutions driving the digital future

Geo Connect Asia 2021 (GCA21) is an exhibition-led geospatial and location intelligence event with a specific focus on Southeast Asia. The event will bring the industry together for two days of focused discussion and networking through the exhibition, as well as a series of conferences and seminars across various industry verticals including:

Agriculture & Forestry

Asset Management

Construction & Real Estate

Disaster Relief & Emergency Planning

Government Planning & Mapping Agencies

Insurance

Logistics, Warehousing & Distribution

Maritime & Fisheries

Mining

Smart Cities & Infrastructure

Utilities

GCA21 is supported by GeoWorks, an industry centre set up by the Singapore Land Authority, under the Singapore Geospatial Master Plan, to bring together geospatial businesses, sectoral users, research institutions and the government to foster a vibrant geospatial ecosystem in Singapore.

## GCA21 Programme Highlights

GCA21 invites geospatial professionals across Asia and beyond to discover the boundless possibilities in the development of this ever-changing industry. Some key factors to note:

- A must-attend trade exhibition in the ASEAN region
- A full spectrum of tested solutions showcase
- A new digital platform for the geospatial & location intelligence markets
- More than 100 companies across ASEAN to be hosted
- Featuring industry profiles within Geo Connect Asia – Digital Construction Asia 2021 (DCA21) and Unmanned Aerial Vehicle Asia 2021 (UAV21)

A series of interactive activities will be made available on the show floor, offering extensive learning and networking opportunities. These include:

### The show floor

Featuring industry profiles

 Technical Talks <b>20</b>	 Leading Exhibitors <b>100</b>	 Showcasing Start-ups <b>50</b>	 <b>GEO CONNECT</b> Asia 2021	 <b>DIGITAL CONSTRUCTION</b> Asia 2021	 <b>UAV</b> Asia 2021
----------------------------------	--------------------------------------	---------------------------------------	-------------------------------------	--	-----------------------------

# GCA21: Opening doors to a new wave of geospatial applications & innovation

## Exhibit profiles – what to showcase

GCA provides a platform to demonstrate solutions and technologies to reflect the new digital platforms serving government, military, not-for-profit and business applications.

The following list is a guide:

Augmented Reality / Virtual Reality	GIS Software & Services	Photogrammetry & Remote Surveys
Aerial Photography & Surveying	Ground Penetrating Radar	PropTech Solutions
BIM/ Digital Construction	Indoor Mapping	Remote Sensing
Cartography	Instrumentation & Automation	Surveying Instruments & Services
Data & Cloud Management	Light Detection and Ranging (LiDAR)	Synthetic Aperture Radar
Digital Terrain Analysis	Mobile Mapping	Topographic Surveys
Earth Observation & Satellite	Modelling & Visualisation	Unmanned Aerial Vehicles (UAVs)

## Visitor profiles – who will you meet?

The main focus of GCA21 is to bring together the South East Asian geospatial community in one location and to demonstrate the industry's increasing value to existing users and new audiences.

### Primary sectors

Agriculture & Forestry	Government Planning & Mapping Agencies	Mining
Asset Management	Insurance	Smart Cities & Infrastructure
Construction & Real Estate	Logistics, Warehousing & Distribution	Utilities
Disaster Relief & Emergency Planning	Maritime & Fisheries	

### Secondary sectors

Coastal & Inshore Navigation	Manufacturing	Road & Rail
Emergency Services	Military & Defence	Smart Mobility
Heritage	Oil & Gas	Water & Waste

### Job titles

Architects	Engineers / Technicians	Senior Managers / Managers
Cartographers / Photogrammetrists	GIS Specialists	Solutions Architects / Systems Integrators
CEOs / Directors / Business Owners	Landscape Architects	Students
Consultants	Planners	Surveyors / Valuers
Data Analysts	Professors / Lecturers	Venture Capitalists / Investors
Department Heads	Project Co-ordinators	
Developers / Programmers	Researchers / Scientists	

All information is accurate as of date of publication: 11 June 2020

## DIGITAL CONSTRUCTION Asia 2021

Introducing Digital Construction Asia 2021 (DCA21), a featured industry profile within Geo Connect Asia. This is a platform providing a meeting place for the introduction of the latest solutions for the built environment. With a focus on Construction 4.0, DCA will showcase digitalised processes and improved workflows across projects by combining ground-based equipment with aerial capabilities and improved connectivity through the application of AI, BIM, block-chain, cloud, IoT, visualisation and associated technologies.

### Industry 4.0: Opening doors to a new wave of digital construction applications & innovation

#### Exhibit profiles – what to showcase

DCA21 provides a platform to demonstrate solutions and technologies to reflect the new digital platforms serving government, military, not-for-profit and business applications.

The following list is a guide:

3D Printing	Construction Management Solutions	Planning & Analysis
AEC Systems	Critical Communications	Project Design & Services
Artificial Intelligence	Data Visualisations & Virtual Reality	Property-as-a-Service
AR Applications & Services	Digital Engineering Solutions	PropTech
Asset Management	Drone & Aerial Surveying	Satellite Imagery
Automation & Robotics	Education & Training	Sensors
Autonomous Vehicles	Geospatial & Geotechnical Solutions	Smart Infrastructure Solutions
BIM Integrations	Global Navigation Satellite System (GNSS)	Smart Metering
Big Data & IOT	Handheld Devices	Surveying & Measurement
Blockchain	Immersive Environments	Telematics
Cloud Based Applications	Instrumentation & Monitoring Equipment	Visualisation
Construction 4.0	Machine Controls	

#### Visitor profiles – who will you meet?

DCA21 brings together the South East Asian digital construction community in one location to demonstrate the industry's increasing value to existing users and new audiences. Check out the list of visitor profiles here:

#### Job titles

Architects	Digital Construction Managers	Project Managers
BIM Specialists	Digital Practice Managers	Real Estate Developers
CEO / CFO / CIO / CTO	Estate Valuers	Owners & Investors
Consultants	Facility & Estate Managers	Surveyors
Construction Managers	Heads of Innovation	Systems Integrators
Consulting Engineers	ICT Managers	Universities & Educators
Contractors	Operations Managers	Visualisers

All information is accurate as of date of publication: 11 June 2020

Introducing Unmanned Aerial Vehicle Asia 2021 (UAV21), a featured industry profile within Geo Connect Asia. UAV21 provides a meeting place for the introduction of the latest geo-based solutions for the UAV industry. The focus is on providing integrated geospatial solutions for key sectors across South East Asia, incorporating aerial and ground-based technologies.

## Industry 4.0: Opening doors to a new wave of unmanned aerial vehicle applications & innovation

### Exhibit profiles – what to showcase

UAV21 provides a platform to demonstrate solutions and technologies to reflect the new digital platforms serving government, military, not-for-profit and business applications.

The following list is a guide:

Communications Systems	IoT Solutions	Search & Rescue
Cameras	Imaging & Vision Systems	Sensors
Control Systems	Intelligence Systems	Software Solutions
Data & Workflow Analysis	Launch & Recovery Systems	Surveying & Inspection
Drives & Motors	Mapping & Aerial Analysis	Surveillance & Reconnaissance
Drones	Research & Development	Training & Simulation
Geospatial Analysis	Robotics	Unmanned Aerial Vehicles
GPS	Satellite & Remote Sensing	Video Streaming

### Visitor profiles – who will you meet?

UAV21 brings together the South East Asian Unmanned Aerial Vehicle community in one location to demonstrate the industry's increasing value to existing users and new audiences. Check out the list of visitor profiles here:

Aid & Development Agencies	GIS Specialists	Project & Operational Teams
Asset Owners & Operators	Government Authorities	Surveying & Mapping Companies
Consultants	Insurance Companies	Technology Solutions Providers

### Operators in key sectors

Agriculture & Forestry	Energy & Utilities	Oil & Gas
Archaeological Surveys	Environmental Protection	Tourism
Construction & Infrastructure	Maritime & Coastal	Transportation
Defence & Public Safety	Mining & Aggregates	Urban Development

All information is accurate as of date of publication: 11 June 2020

## Build your market position and visibility at our show

### Leverage on the unique business opportunities and vibrant networking platforms

- **Reach out** to more than 2,500 professional visitors over two days
- **Showcase** your full range of solutions to visitors from Southeast Asia
- **Meet leaders and specialists** from targeted industry groups
- **Work with us** on bespoke packages to achieve your marketing objectives
- **Take advantage** of complimentary and tailor made publicity opportunities
- Book early to guarantee a **speaking opportunity** at the Tech Talk Stage
- Select from the multiple **sponsorship opportunities** available
- **Strengthen** your branding position and develop partnerships in new markets
- **Recommend** thought leadership focused speakers to help develop content with us
- Utilise the on-show activities to **enhance** your company's profile

### Reserve your prime space today! Ready to Walk-on Stands begin at S\$ 7,650\*
